CO6 / TIGER COVE
Infinity™ solid double sided profile,
(140 x 23 mm)

A modern outdoor patio with a wooden deck. On the left, there is a wall made of horizontal wooden slats with integrated lighting. A large, dark, round planter holds a tall palm tree. In the background, a living room is visible through a large opening, featuring a brown sectional sofa, a patterned rug, and recessed ceiling lights. A hanging basket with greenery is suspended from the ceiling. A glass railing with a blue-tinted lower section is on the right.

*Infinity*TM

*Infinity*TM gives you durability, versatility, and true peace of mind.

Longer lasting for longer lounging.

Infinity[™] composite decking is tested and proven to outperform wood and timber in even the harshest weather conditions. This revolutionary co-extruded bamboo composite range uses award-winning Eva-Last[®] capping technology to withstand all that Mother Nature has to throw at it. Rest assured that with *Infinity*[™] you're getting the best composite decking available.

DECK BOARD FINISHES

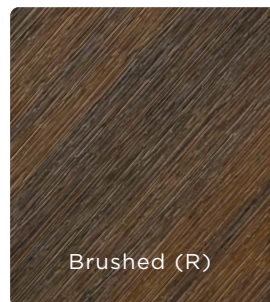

Wood Grain (L)

Smooth Bark (QR)

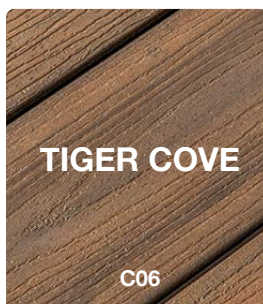

SCREEN BOARD FINISH

Brushed (R)

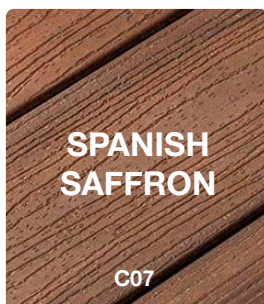

Infinity[™] grooved and solid composite deck boards are reversible to give you more choice in a single product. Find different natural finishes on either side of the decking board to satisfy your specific style and application. Complementary and interchangeable colours are available to maximise your design options, provide more flexibility and help make your home better.

140 x 23 mm

Infinity™ co-extruded composite decking
available in two sizes.

Dimensions	90 x 23 mm (5.4 m length) 140 x 23 mm (5.4 m length)
Weight	2.51 kg per metre (90 x 23 mm) 4.01 kg per metre (140 x 23 mm)
Joist spacing	450 mm centre to centre
Fasteners	HULK CDS screws, 50 per square metre (90 x 23 mm) 30 per square metre (140 x 23 mm)

Infinity™ non-grooved deck boards are solid, square-edge profiles. They are best installed using HULK top fixing screws, available in various colours to match the selected deck board. These double sided boards offer two different finishes. One on each face to provide extra design options.

Available in
140 x 23 mm
(ONLY AVAILABLE IN WA)

Infinity™ arched co-extruded composite decking

Dimensions	140 x 23 mm (4.8 m length)
Weight	3.22 kg per metre
Joist spacing	400 mm centre to centre
Fasteners	HULK Halo clip & screw, 16 per square metre

The Infinity™ arched profile offers the QR wood grain finish on one side. This grooved profile is designed to be used with HULK hidden fastener clips. As a lighter-weight decking board, it is versatile enough to be used for decking or vertical cladding applications.

SCREEN
70 x 16 mm

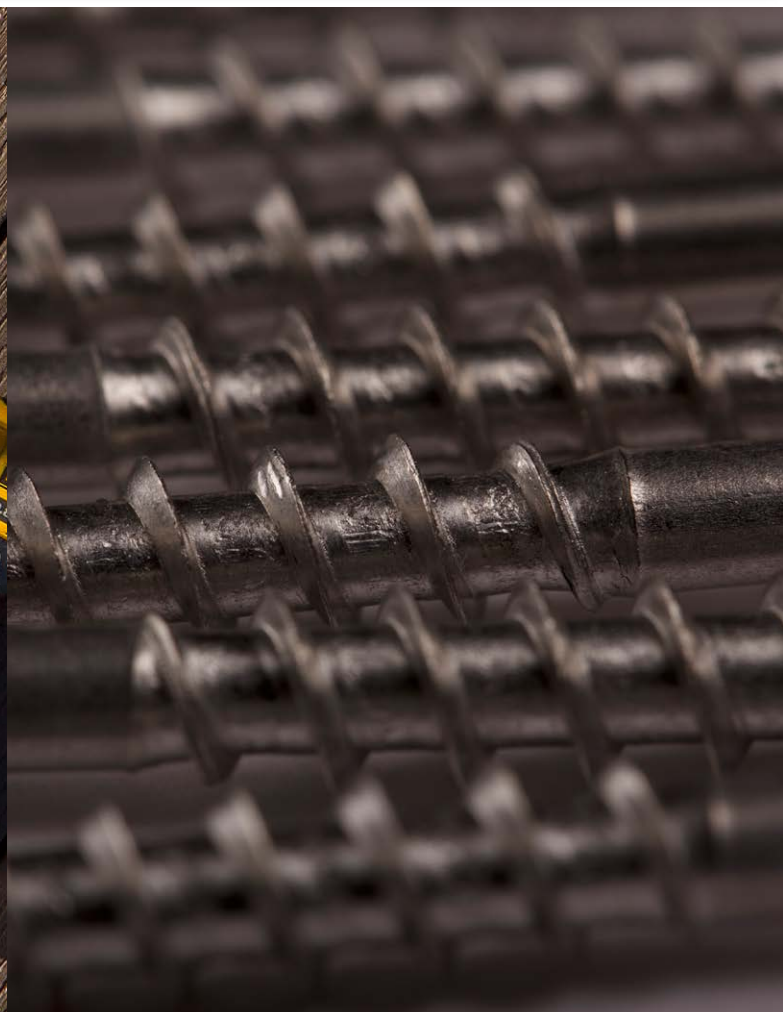

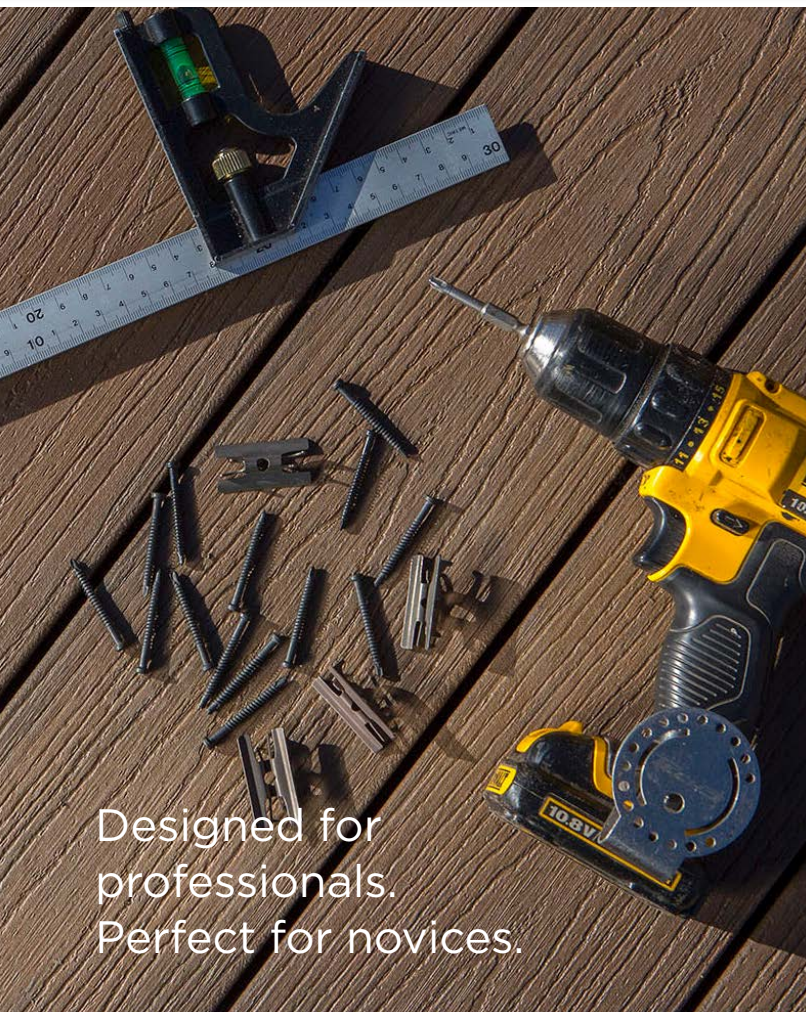

*Infinity*TM co-extruded composite screening

Dimensions	70 x 16 mm (4.8 m length)
Weight	1.36 kg per metre
Span	1200 mm when fixed to 3 or more supports 900 mm when between 2 supports
Fasteners	HULK CDS screws, 25 per square metre

The *Infinity*TM screen or fascia board is a thin, lightweight composite profile. This double-sided board offers the R finish on both faces of the profile to create a neat aesthetic for cladding or screening. HULK top fixing screws securely fasten the boards in place and are available in colours to match the composite boards for a seamless look.

FASTENERS

HULK FASTENERS

Eva-Last® has developed a range of fasteners that thoroughly complement our composite products to ensure the stability and longevity of your deck. HULK fasteners are specially designed to securely fasten the deck boards to a substructure, but can also be used in other wood or steel fixing applications. The coating employed for our HULK fasteners ensures the fixing system supports your deck through out its lifespan.

HULK FASTENERS
